FOR IMMEDIATE RELEASE

CliniComp, Intl. Expands EMR Install Base in First Quarter 2010

Rapid deployments reflect rising momentum for Essentris EMR

San Diego – April 13, 2010 – [CliniComp, Intl.](#), a global provider of mission critical clinical documentation systems, announced today that three more hospitals have deployed the [Essentris® EMR™](#) in first quarter 2010. These latest concurrent implementations are part of the company's contract with the Department of Defense (DoD) to provide enterprise-wide inpatient clinical documentation.

Over a two-month period, CliniComp implemented *Essentris* at the following U.S. Army and Navy military treatment facilities:

- [Naval Hospital Camp Lejeune](#), North Carolina, went live in Behavioral Health, Mother Baby Unit, Labor & Delivery, Med-Surg, Nursery, and Same Day Surgery.
- [Robert E. Bush Naval Hospital](#), Twentynine Palms, Calif., installed *Essentris* in Post Anesthesia Care Unit, Med-Surg, Mother Baby Unit, and Same Day Surgery.
- [Ireland Army Community Hospital](#), Ft. Knox, Ky., is using the solution in the Intensive Care Unit, Labor & Delivery, Recovery and Postpartum, Med-Surg and Post Anesthesia Care Unit.

“These rapid deployments reflect CliniComp’s ability to concurrently configure, train and deploy clinical information systems across several units supporting some of the most complex clinical areas at multiple facilities,” said Alan Portela, CliniComp’s President. “As hospitals prepare for meaningful use, they can turn to and rely on CliniComp’s 26 years of EMR implementation experience to fill the clinical automation gaps in their high acuity areas quickly and comprehensively.”

CliniComp is a leader in high acuity health care automation, supporting private sector, DoD and Veterans Administration hospitals. The company’s *Essentris* system is a multidisciplinary EMR suite encompassing inpatient documentation, reporting and clinical surveillance for enterprise-wide workflow support to acute care hospitals, academic medical centers and integrated delivery networks. *Essentris* streamlines clinical workflows, simplifies access to unified patient data and helps organizations build a longitudinal patient health record.

CliniComp will demonstrate its [Essentris® ED™](#) solution for emergency departments, an integral part of the Military Health System’s contracted solution for inpatient clinical documentation, at the Government Services ACEP conference in Lake Tahoe, California, on April 13-14.

About CliniComp, Intl.

San Diego-based CliniComp, Intl. was founded in 1983 by Chairman and CEO, Chris Haudenschild. CliniComp is a global provider of enterprise clinical documentation systems proven to improve the efficiency and safety of health care providers’ highest-acuity workflows. The *Essentris® EMR™* suite is the inpatient documentation solution for the U.S. Military Health System and has supported patient care at leading health care systems such as VA North Texas Health Care System, UCLA Health System, and Tenet Healthcare throughout the country for over 26 years.
