**CLINICOMP ANNOUNCES AGREEMENT WITH TENET HEALTHCARE CORPORATION**

***CliniComp's Essentris Perinatal will initially be deployed in seven facilities***

**SAN DIEGO – Sept. 4, 2008 – [CliniComp, Intl.](#)**, a leading provider of intelligent inpatient electronic medical record and clinical surveillance solutions, today announced an agreement to provide the [Essentris™ Perinatal Solution](#) to [Tenet Healthcare Corporation](#) (NYSE: THC), one of the country's major health systems.

Dallas-based Tenet initially will deploy CliniComp's Essentris Perinatal in the labor and delivery (L&D) units of seven of its facilities, with additional installations planned for 2009 and 2010. Subsequently, additional Tenet facilities will replace current documentation processes in their L&D units with Essentris Perinatal.

A team from Tenet and CliniComp collaborated to configure the perinatal-specific clinical documentation application to best meet the needs of the Tenet facilities. The final, standardized solution was successfully piloted and installed at St. Mary's Medical Center in West Palm Beach, Fla.

Essentris Perinatal enables hospitals to align documentation with best practice models and provide a methodology to maintain documentation corresponding with changes in regulation. The establishment of uniform documentation will meet standards of care practices from the American College of Obstetricians and Gynecologists, American Academy of Pediatrics, and the Association of Women's Health, Obstetric and Neonatal Nurses. The solution also supports reporting requirements from the Joint Commission.

"We are very excited by Tenet Healthcare's decision to install the Essentris Perinatal system at seven of its hospitals," said Alan Portela, chief operating officer, CliniComp, Intl. "As a leader in

perinatal documentation, our systems have evolved to meet the market's demand for specialized functionality, combined with enhanced liability protection. We look forward to working with Tenet."

Built on the award-winning Essentris platform, which provides an intelligent, reliable inpatient electronic medical record and surveillance infrastructure, Essentris Perinatal is uniquely designed to manage clinical workflow across the entire continuum of perinatal care. It provides integrated modules for fetal surveillance, maternal charting and neonatal (level 3) ICU management. The system captures and links all episodes of care, including mother to baby information, into a longitudinal electronic medical record.

### **About Tenet Healthcare**

Tenet Healthcare Corporation, through its subsidiaries, owns and operates acute care hospitals and related health care services. Tenet's hospitals aim to provide the best possible care to every patient who comes through their doors, with a clear focus on quality and service. Tenet can be found on the World Wide Web at [www.tenethealth.com](http://www.tenethealth.com).

### **About CliniComp**

CliniComp is a leading provider of an intelligent, reliable inpatient electronic medical record and surveillance solution suite to leading hospitals and health systems. In its two-decade history, CliniComp has been a pioneer in bridging the gap between the back office and the bedside by extending existing HIS and ancillary systems to the point of care. The Essentris enterprise solution maximizes IT investment and enforces consistent workflow across all aspects of patient care. Essentris' use of a single, interdisciplinary, electronic chart enables caregivers to easily access and view the total clinical experience and provides a new generation of real-time clinical surveillance and analysis tools. The result is a dramatic improvement in quality and safety of patient care, outcomes and clinical decision-making. Essentris is deployed at approximately 70 client sites, including UCLA Healthcare, Baptist Health South Florida and Tenet Healthcare Corporation. CliniComp also has a sizable deployment across the Military Health System, covering more than 45 percent of all Department of Defense beds. For more information, visit [www.clinicomp.com](http://www.clinicomp.com) or call 800.350.8202.
